A reliable overhaul on Traction Motors

PREPARES NECESSARY COMFORT FOR LOCOMOTIVES ENGINEERS AND OPERATORS

Rail transportation is the most economic solution in the world. But a reliable transport, needs high quality parts and components.

World Part Supplier Co. provides variety of services to clients and owners of locomotives that entails:

- Overhaul of EMD and GE traction motors
- Manufacturing traction motor's stator poles
- Manufacturing traction motor's rotor pole kits

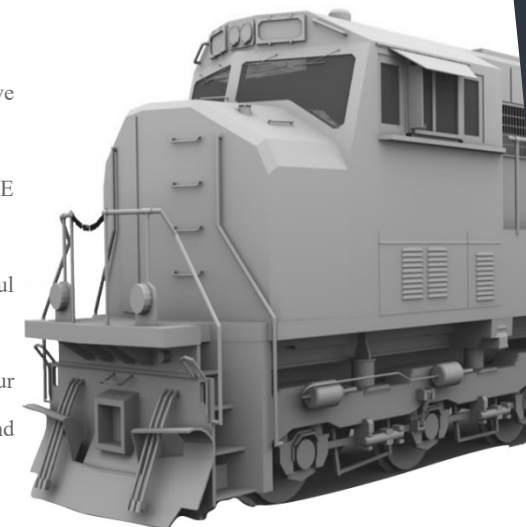

WPS has reheared for years to achieve invaluable quality.

We are manufacturer of enormous variety of locomotive parts and components.

We also repair and overhaul traction motors of EMD and GE locomotives.

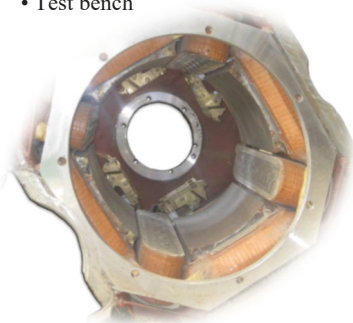

Furthermore, we manufacture coils and parts for overhaul and repair projects.

We are proud to state that all machines are developed by our engineering department. Based on our internal science and technology, we are providing hullmark products.

RELATED MACHINES:

- Vulcanize machine
- Frame rotator stand
- Di-oxidizing machine
- Megger machine
- Test bench

Different choices for All different needs

WHY CAN YOU TRUST OUR PRODUCT?

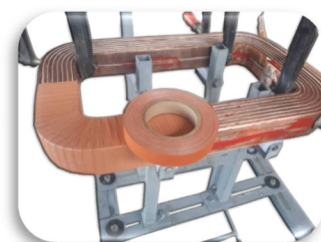

World Part Supplier is offering this services since 8 years ago under the name of its sister company.

We have reached to the point to proudly advertise for our goods and assert: "If we are not number one in the world on this product but we are one of the bests". Some reasons:

- Growing list of worthwhile clients that proves our quality
- No warranty claim so far
- Getting advantage of highly pure copper in production
- Using the best quality materials in our projects
- Offering the best quality for the cheapest price
- Full none negotiable warranty obligation is one of our honors

WARRANTY OBLIGATIONS AND SERVICES

World Part Supplier provides full warranty on its products and goods for a period of 18 months.

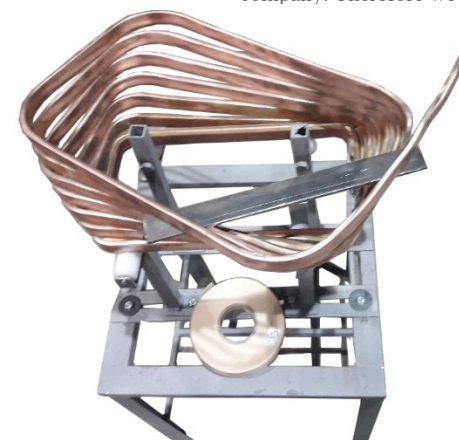

CONSULTING WORLD PART SUPPLIER WILL BRING YOU THE BEST END USER RESULT.

What do we offer?

Our engineering department works hard to get clients satisfaction of our productions and service.

Your consent is imperative and the most important for our company. Therefore we established a system to offer:

- 1) Manufacturing all kinds of coils and poles for EMD and GE traction motors
- 2) Full repair and overhaul on your existing coil and poles in our shop
- 3) Complete overhaul on your traction motors including supplying parts and components with warranty

Here we indicate succinctly some of our projects:

- Repair of EMD D78 traction motors
- Repair of GE T900 traction motors
- Manufacturing coils for clients
- Manufacturing traction motor rotor coils for customers
- Rehabilitated scrap traction motor frames for re-use
- Manufacturing collector for EMD D78 traction motors
